POWER NEEDS DISCUSSED AT MEETING HERE

City Officials Point Out Present Plant Entirely Inadequate

PURCHASE PROPOSED

Will Consider Buying Additional Current From Louisiana Company

Realizing that the municipal power and light plant at Forsythe park is at present far inadequate for present needs and that it will be still more inadequate within the next few months because of the city's continued growth, Mayor Harvey H. Benoit and the two city commissioners summoned 150 representative taxpayers and business men to meet with the administration and discuss ways and means to remedy the trouble. The meeting was non-political and was held in Hotel Virginia Wednesday at 7:30 p. m.

After many men identified with business interests of the city had expressed their viewpoints, it was voted that a special committee would cooperate with the city officials and obtain rates and other figures connected with securing electricity from the Louisiana Power and Light company to be used to supplement that produced at the local plant and which will be more than the plant is able to generate. This committee is to report back to a citizens committee in the near future and suggest the taking of positive action by the city of Monroe.

The committee comprises J. F. Marx, Carl McHenry, Fred Millsaps, Malcolm Biedenharn, Sig Mayer, Murray Hudson, P. M. Atkins, J. H. Trousdale, H. K. Touchstone, R. M. Breard, Jr., W. J. Sherrouse, A. V. Miller, C. E. Weinman and Travis Oliver.

In addition to making an investigation dealing with furnishing the city additional light and power, it was also voted that the same committee be empowered to investigate costs, ways and means of extending sewer and water systems of Monroe.

The meeting was presided over by J. F. Marx and was attended by Mayor H. H. Benoit, City Commissioners C. R. Tidwell and W. D. H. Rodriguez and Harry Fraser, city auditor, who occupied seats near the meeting chairman. In a brief manner, Mayor Benoit explained that the municipal light and power plant comprises equipment such as boilers and generators that are from 13 to 19 years old, that the capacity is placed at the outside at 45,000 kilowatts but that the daily "peak" is now in excess of that and new construction

FOUR CALCASIEU OFFICIALS HELD

Two Representatives And Two Police Jurors Indicted

LAKE CHARLES, La., Oct. 12.—(AP)—Calcasieu parish's two state representatives and two members of the parish police jury, indicted Wednesday afternoon for dual office holding, surrendered today to the sheriff and were released immediately on bond of $250 each.

Those indicted are Representative Robert T. Mutersbaugh and Police Juror Ernest J. Olivier of Lake Charles, Representative Dr. J. W. Shaw and Police Juror Walter Romero of Vinton.

Indictments against them charge that Representative Mutersbaugh was also on the state highway commission payroll as assistant superintendent of maintenance at Lake Charles. Olivier, in addition to his police jury work, the indictments state, was also Calcasieu inspector for the state board of health.

Dr. Shaw, state representative, also served as deputy moratorium commissioner or assistant to the deputy moratorium commissioner here, the indictment against him charges. Romero is accused of holding a job as agent of the minerals division, conservation department, after his appointment as police juror to succeed the late J. E. Ratliff of Vinton.

None of the men had any statement to make and all appeared to be in good humor this morning as they appeared in the sheriff's office here to make bond.

DR. J. W. SHAW SAYS HE IS NOT ASHAMED

LAKE CHARLES, La., Oct. 12.—(AP)—Dr. J. W. Shaw, representative from Calcasieu parish in the state legislature, in a statement today regarding the action taken against him by the Calcasieu parish grand jury Wednesday in connection with a charge of dual office-holding, said:

"I am not ashamed of a single thing I have done while serving the people of Calcasieu parish in the state legislature.

"I will have a full statement to make in a few days. In the meantime, I wish to say that I will be in the fight until the end and in the race for office also."

POLICE JURY IS URGED TO VOTE AGAIN ON PORT

Reopening Of Selman Expansion Ballot Urged By Citizens

At the [illegible] meeting called by Mayor H. H. Benoit and city commissioners in Hotel Virginia Wednesday night to discuss the problem of securing [illegible] municipal power and light facilities, the problem of need for a larger airport was voiced by Travis Oliver, local bank president. Following his presentation of the situation, the assemblage voted to ask the Ouachita parish police jury to reconsider action taken Wednesday when by a vote of 7 to 6 it rejected plans to buy additional land at Selman airport.

Mr. Oliver stated that while Selman field was originally ample for local needs, that with larger and faster ships, runways of 4000 to 4500 feet in length are now required. In order to secure such runways a purchase of additional lands is required at Selman field, which is owned by the parish police jury.

The parish has to date expended approximately $175,000 on the field and the sum of $40,000 or thereabouts is now needed to purchase the land needed for expansion purposes. If this land is not secured, Mr. Oliver said that in the future the CAA would undoubtedly not include Monroe as a stop on the route between Jackson, Miss., and Shreveport.

He said that if this results, that there will be a stoppage of local air mail, merchants cannot send express by this means, that a large payroll that is now expended here will be removed to another city, for the Delta Air would doubtless select another city as headquarters. This company also at present pays all taxes in Ouachita parish. Its removal would cut off this source of parish revenue, Mr. Oliver said.

At the close of his talk, J. H. Trousdale made a motion that the Ouachita parish police jury be asked to reconsider its action taken Wednesday morning when it voted 7 to 6 to not purchase additional land at the airport. This was seconded by Fagan Cox and was unanimously carried.

DEATH OF PLANE HOSTESS PROBED

OAKLAND, Calif., Oct. 12.—(AP)—Police continued an investigation today into the death of Miss Lorraine Rosemarie Goodall, 23-year-old air lines hostess whose body was found in her blazing automobile yesterday.

The car was parked at the rear of a closed service station. The doors and windows were shut.

Dr. Gertrude Moore, pathologist, said death had been caused by carbon monoxide poisoning. Battalion Fire Chief Frank Kispert said a bottle which contained a sedative was found in the attractive girl's purse, and that a package of matches fell from her hand when the body was taken from the charred car.

Officers leaned to the theory of accidental death, believing Miss Goodall might have fallen asleep after driving into the service station and that the fire might have started from a cigaret. They said a fire inside the car could have created poisonous fumes.

Women And Children Go To Country As Fortifications Built

WASHINGTON, Oct. 12.—(AP)—The American government, it was learned authoritatively today, is expressing to Soviet Russia its "earnest hope" that nothing may occur calculated "to affect injuriously" peaceful relations between Russia and Finland.

It was also learned that the American move was an entirely independent action of the United States government.

Instructions covering the representations were sent to American Ambassador Laurence Steinhardt at Moscow.

The American action apparently ruled out joint action by the United States, Norway, Sweden and Denmark on the Finnish situation. Dispatches from several Scandinavian capitals indicated their governments were also contemplating diplomatic steps at Moscow.

MOSCOW, Oct. 12.—(AP)—Finland's envoy went to the Kremlin today for the latest in the series of conferences by which Soviet Russia is expanding her power in the Baltic sea.

Dr. Juho Kusti Paasikivi, one-time premier, met Soviet Premier-Foreign Commissar Vyacheslaff Molotoff at 5 p.m. (9 a.m., eastern standard time) for the first of the talks in which Finland is expected to learn what concessions the expanding Russian state desires of her.

TRIPPERS ON OUTING PARTY

Chamber Of Commerce Party Visiting Six Parishes Thursday

The good will trippers of the Chamber of Commerce left in three buses Thursday morning from Hotel Virginia to complete a one-day trip through cities and towns of Caldwell, LaSalle, Winn, Jackson, Lincoln and Union parishes.

The entire 64-piece Ouachita Parish High school band accompanied the party, occupying a bus of their own and prepared to give programs at each stop that will be made en route.

Dinner was served at Winnfield Thursday noon when the party were guests of the Rotary club of that city.

Those making the trip were A. B. Clarkson, Vernon Adkins, Benny Bicknell, Sam Smith, J. F. Cox, L. M. Norton, H. C. Clark, Bill Rothermel, Jack Boyer, E. R. Dawson, J. C. Dollar, H. R. Hodges, Ben Hawkins, H. M. James, Bernard Levi, P. E. Massey, Max Moses, J. D. Petty, H. L. Patterson, L. P. Milner, H. K. Touchstone, Jack H. Goodwin, J. W. Warren, E. R. Whitaker, Fred Tranchina, Joseph Mickel, Bill Mayo, H. R. Saenger and J. W. Keene.

SAM JONES DEFENDS RIGHT OF PETITION

DONALDSONVILLE, La., Oct. 12.—(AP)—Sam Jones, candidate for governor, in his address at the South Louisiana State fair here, defended the right of petition and demanded a "free judiciary."

"Not even the courts are safe as long as the present political gang is in power," Jones declared.

"Only two days ago two grand jurors in the city of New Orleans were jailed," he said, "because they tried in a legal manner to do their part in cleaning up corruption and bringing the guilty to justice.

"The grand jury is the final protection line of the people against corruption in the courts. It is a check against corrupt prosecutors and corrupt judges. In its sphere it is the supreme voice of the people.

"The political gang in New Orleans is trying to wipe out the last line of protection. Now you can't even have the right of free speech. You can't read a petition. Let me tell you why they won't let you. They don't want it known what has been going on because it's political dynamite."

Chamberlain Says Proposal By Hitler Cannot Be Accepted

Asserts Peace On Such Basis Would Forfeit Britain's Honor

LONDON, Oct. 12.—(AP)—Prime Minister Chamberlain told the house of commons today that it would be impossible for Britain to accept any such basis for peace as Adolf Hitler proposed "without forfeiting her honor."

The prime minister also said tabt by acceptance of such a basis Britain would "abandon her claim that international disputes should be settled by discussion and not by force."

Acceptance of the German-Soviet partition of Poland was a prior condition of peace overtures which Hitler made in his reichstag speech last Friday.

"We must take it that the proposals which the German chancellor puts forward for the establishment of what he calls 'the certainty of European security' are to be based on recognition of his conquests and his right to do what he pleases with the conquered," the prime minister said.

It was Chamberlain's first speech since Hitler's reichstag address.

Chamberlain stressed that Hitler's overtures were examined by Britain "in consultation with the governments of the dominions and of the French republic."

"The plain truth is that, after our past experience, it is no longer pos-

IROQUOIS SAFE AFTER STORMY OCEAN VOYAGE

Woman Passenger Calls Threatened Vessel 'Ship Of Horrors'

NEW YORK, Oct. 12.—(AP)—A terrific three-day storm and an ever-flowing stream of sinister rumors tortured 788 Americans—577 passengers and 211 crewmen—who reached New York last night on the liner Iroquois—the ship which the German admiralty warned would be sunk by an allied belligerent.

Ablaze with lights, the 12-year-old vessel dropped anchor to the cheers of some 2,000 who had gathered to greet her. A giant spotlight played on a large American flag at her stern. Other powerful lights were directed on two other flags—12 by 20 feet—painted on her sides.

Mrs. Mary Stiegelman of Baltimore, one of the passengers, declared, "If ever there were a ship of horrors, this was it. The storm was so bad that some of the officers said they expected the top of the boat to blow off. Everyone was ill. Then, they started searching our baggage and wouldn't say what for.

"They made us go into the holds—dark, dirty holds—to identify our trunks. Some of us were so sick we couldn't go. When we told them we couldn't, they told us they would smash our trunks open."

Several passengers agreed the most frightening of the speculations aboard ship was that a time bomb had been secreted somewhere.

GALLOGLY'S STAY IN TEXAS MAY BE LONG

DALLAS, Tex., Oct. 12.—(AP)—Fugitive Richard Gallogly, Georgia's problem prisoner who fled a life-term seeking "justice in Texas," has the prospect of being a Texan many months—even though they could be behind cell bars he escaped only six days ago.

Legal snarls attendant to extradition of prisoners could keep Gallogly and his petite, blonde wife in Texas even if Governor W. Lee O'Daniel grants their extradition to Georgia, attorneys revealed.

The prominent Atlantan, deliberately planned his break and Texas destination that he might fight return to fulfillment of a life sentence for complicity in a slaying. His wife, Vera, 28-year-old Georgia music teacher, surrendered on a fugitive warrant charging she aided in his escape. She went free on $2,500 bond.

State Senator Jesse Martin, one of Gallogly's attorneys, declined to say definitely how long Gallogly could be held in Texas even if denied a stay of extradition, but admitted that carrying the case to appellate courts could consume "much time."

Georgia officers came to Texas to seek immediate extradition of the couple, united again in a jail embrace last night after Mrs. Gallogly's hearing.

TALLY-HO

ANDOVER, Mass.—The citizens of this town are still a little breathless about it.

A red fox dashed down a quiet residential street yesterday, pursued by a pack of baying hounds.

No one knows just how it came out.

TRIAL AND ERROR

ATHOL, Mass.—This is one way of settling an argument, albeit a little expensive.

One young man held that a main street curbing was high enough to stop a coasting automobile. The other said no. So they lined up a car, owned by one of them, gave it a push and let it coast.

It coasted into the curbing, jumped over and smashed two plate glass windows in a store. That'll cost them $100.

ELBOW ROOM

SANTA FE, N. M.—The late blue eagle of NRA fame never stirred so much controversy as the golden eagle Albert Clancy caged.

Clancy said s'help him, he caught it with his little lariat—lassoed it while it sat on a fence post and looked the other way.

Officials of the S. P. C. A. arranged to transfer the eagle to the city zoo.

"A lot of people here were very incensed," said President W. S. Patterson. "They didn't like to see our great American bird confined to a little cage and subjected to ridicule in these precarious times."

FREES THE FROSH

EVANSTON, Ill.—Ticket Manager Ted Payseur of Northwestern university freed the freshmen from the onerous duty of seat warming at football games in Dyche stadium.

For years fraternity and sorority upper classmen sent frosh to the stadium as much as two hours before game time with orders to plant themselves in choice seats in the student section until their elders arrived.

CHEST FORCES TAKING SHAPE

Further Central Organization Announced By Alston Prophit

Further organization of the central forces for the second annual financial campaign of the Twin City Community Chest was announced Thursday by C. Alston Prophit, general campaign chairman.

He revealed that he had named S. A. Moss general vice-chairman in charge of the personnel that will conduct the campaign. Mr. Prophit had previously chosen Bob Burns general vice-chairman in charge of details and Mrs. J. B. Kugler and Mrs. L. V. Tarver general vice-chairmen in charge of the women's phase of the campaign.

It was announced by Mr. Prophit that R. N. Slator had been selected chairman of the committee in charge of solicitation of employes of concerns with 10 or more workers. Louie Mathis and Walter Savage were named to assist Mr. Slator and the three were authorized to name as many others to aid them as they deem necessary.

With the exception of naming team captains and team members, Mrs. Kugler and Mrs. Tarver have perfected their organization, which will conduct solicitation of Chest memberships in residential areas of Monroe and West Monroe.

The Twin Cities have been divided into nine districts, eight in Monroe and one in West Monroe. A district chairman will supervise the campaign in her district.

The district chairmen for Monroe are Mrs. J. C. Hamilton, Mrs. E. G. Courtney, Mrs. Jack Masur, Mrs. DeWitt Milam, Mrs. Clifford Strauss, Mrs. Paul Newman, Mrs. E. D. Ory and Mrs. L. A. Breard. The district

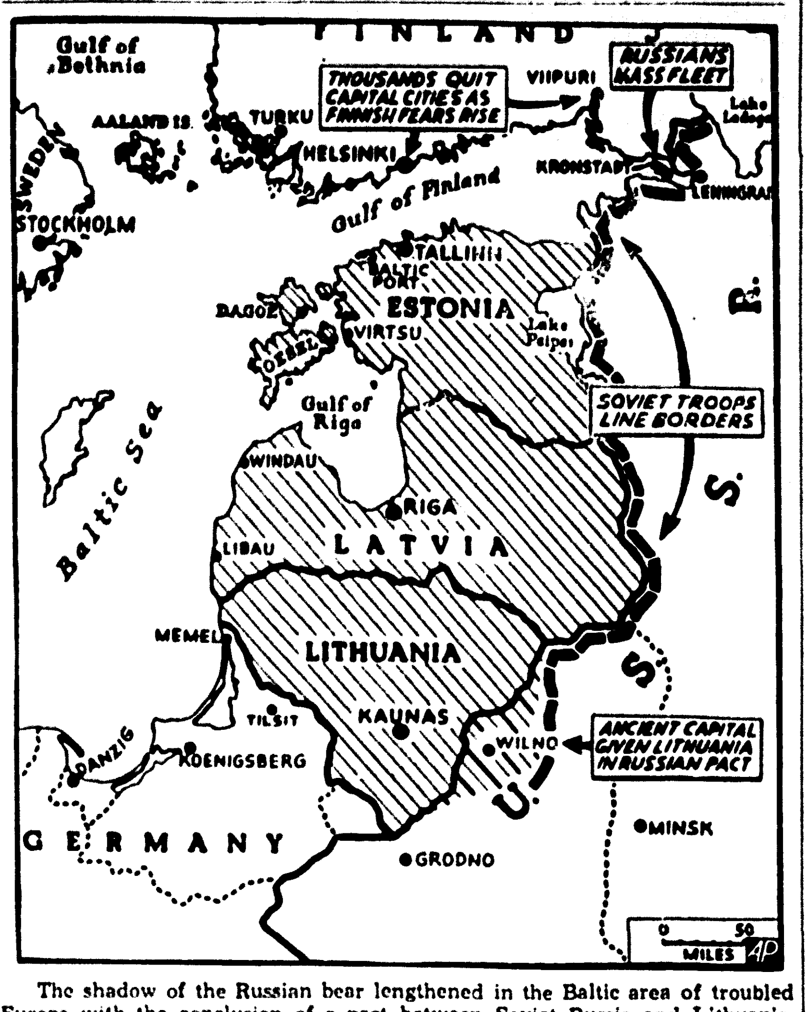
BRITAIN CAPTURES GERMAN STEAMER

LONDON, Oct. 12.—(AP)—The British navy was reported today to have captured the 13,615-ton German steamer Cap Norte.

The report, issued by the British Press association, said the Cap Norte, a ship in trade between Germany and South America, had sailed from the Brazilian port of Pernambuco September 17.

BEAR CASTS LONGER SHADOW NOW



The shadow of the Russian bear lengthened in the Baltic area of troubled Europe with the conclusion of a pact between Soviet Russia and Lithuania, giving Russia a Baltic springboard extending from the Gulf of Finland to the border of East Prussian Germany, near the port of Memel recently seized from Lithuania by Germany. On this map the shaded area shows the three Baltic states—Estonia, Latvia and Lithuania—with which the Soviets have concluded agreements making them virtually Russian protectorates. The shaded portion is extended to include Wilno (Vilna), ancient Lithuanian capital, and the approximate area surrounding it which has been restored to Lithuania. Thousands were reported ready to flee Helsinki, capital of Finland, and Viipuri, capital of eastern Finland, as Russia massed men-o'-war off Kronstadt and thousands of troops along the borders of the Baltic nations now under her influence.

LEADERS WANT LESS RIGID BAN ON U. S. SHIPS

Both Sides Seek To Modify This Phase Of Neutrality Bill

WASHINGTON, Oct. 12.—(AP)—Leaders on both sides of the arms embargo controversy sought today to modify the neutrality bill's rigid ban on American ships trading with belligerents.

Half a dozen senators arranged to confer with Chairman Pittman, Democrat, Nevada, of the foreign relations committee on as many proposed changes. Details were not disclosed.

Meanwhile, four more speakers asked for time to carry on the senate's neutrality debate—Senators LaFollette, Progressive, Wisconsin, and Bulow, Democrat, South Dakota, for retention of the arms embargo and Chavez, Democrat, New Mexico, and Taft, Republican, Ohio, for its repeal.

Senator Bailey, Democrat, North Carolina, an advocate of embargo repeal and one of those favoring modification of the shipping restrictions, said he was satisfied that changes would be made "tending to preserve the interests of our merchant marine.

'DUMMY CANDIDATES' REPORTED DISCUSSED

NEW ORLEANS, Oct. 12.—(AP)—Despite denial by James L. Reilly, chairman, that an Old Regular caucus was held here yesterday, reports said that at conferences the question of qualifying "dummy candidates" was discussed.

It was reported that no action had been taken by the Old Regulars toward the candidacy of Governor Earl K. Long who already has the support of the Louisiana Democratic association, state administration organization founded by the late Huey Long.

These reports indicated that no action would be taken until after October 23, the date of expiration for gubernatorial candidates to qualify.

Under the old dummy candidate system local candidates qualified, submitted names for the drawing of election commissioners to the parish Democratic committee and then withdrew.

This practice was ruled out under a special session law of 1935 which provided for the election commissioners to be selected by the parish boards of election supervisors, a majority of whose members were appointed by the governor.

In 1937, however, the supreme court held invalid the law which vested the drawing with the local boards.

In New Orleans candidates for the house of representatives and the senate can submit names to the Orleans parish Democratic committee for the drawing of commissioners. Five commissioners are selected to serve at each precinct poll.

MORRISON SAYS HE WILL TRIM MAESTRI DOWN

Asserts New Orleans Mayor Will Be Made 'Frying Size'

NEW ORLEANS, Oct. 12.—(AP)—Thousands of persons packed a wide city street last night to hear James H. Morrison, 30-year-old Hammond attorney, attack state politicians and promise good government as he formally opened his city campaign for the governorship.

His descriptions of rival candidates:

Governor Earl K. Long—"Rotten, nasty, stoogey Earl Long, who double-crossed his own brother. . . . Riding on the coat-tails of Bob Maestri."

Sam Jones of Lake Charles—"A corporation lawyer brought out by old J. Y. Sanders." (Sanders was a former governor who fought the late Huey P. Long.)

State Senator James A. Noe—"Is being financed in this campaign by Seymour Weiss." (Weiss, once Huey's treasurer, now under conviction for mail fraud.)

And of Mayor Robert S. Maestri of New Orleans, who is not a candidate—"Is a bosom pal" of Jimmy Moran, indicted this week in the half-million-dollar slot machine income tax case.

Morrison said he fought the present and former state administration leaders when they were "at the height of their power."

"I fought them when it was tough," he said. "It is a picnic to fight them now. The power of the state and city machines now is a myth. Where were the other candidates for governor when the going was tough?"

Morrison promised repeal of the sales tax, old age pensions of $30 per month and reduction of automobile license charges to $3.

"I have pulled Leche down to frying size," Morrison said, "and I am going to pull Maestri down to frying size."

Morrison then turned his attention to Governor Long.

"If there ever was a man hated by the people it is Earl Long," Morrison said. "Think of that rotten, nasty, 'stoogey' Earl Long, who double-crossed his own brother. He tried to destroy his own brother, and now is trying to ride into office on the coat-tails of that dead brother. The coat-tails he is riding on are the coat-tails of Bob Maestri."

Morrison promised to rehabilitate the port of New Orleans.

"The port is the life blood of New Orleans," he said. "It was the second port of the country, and now it is worse than 17th. The business of the port of Galveston has doubled since 1935, while the tonnage at the port of New Orleans in 1935 was a little more than it is today.

"The reason for this is mismanagement by the disgraceful politicians who control the port of New Orleans. When I am governor, I will fumigate and clean up, and put the port of New Orleans back where it belongs. Rotten,

OTHERS SOON EXPECTED TO BE INDICTED

Long And Maestri Working Hard To Quell Dissatisfaction

FACE MANY WORRIES

Citizens Voluntary Committee Threatens To Impeach Ellison

NEW ORLEANS, Oct. 12.—(AP)—Louisiana speculated today on the "highly placed" persons not previously indicted who are reported under investigation by the federal grand jury here.

The information came from United States Attorney Rene J. Viosca who declined to say when indictments might be expected. O. John Rogge, United States assistant attorney general directing the scandal investigations, is expected back here from Washington Sunday.

Meanwhile, Governor Earl K. Long and his adherent, Mayor Robert S. Maestri, were reported in almost endless conferences seeking to quell reported dissatisfaction within administration ranks in New Orleans.

There were many other things for Long and Maestri to worry about. A few:

The Citizens Voluntary committee threatened impeachment proceedings against State Attorney General David Ellison unless he takes action on information given him regarding law violations.

John E. Jackson, Republican national committeeman of Louisiana, named to bring impeachment proceedings against the administration-appointed Charles E. Byrne, New Orleans district attorney, promised to "prosecute from hell to breakfast."

The Times-Picayune reported receipt of a $5 contribution to buy medals for Sidney DeArmas and Edgar H. Powell, who were removed from the New Orleans grand jury while trying to read a report charging Byrne with impeding the jury's work.

DeArmas and Powell appealed to the supreme court for reinstatement on the jury, charging Judge George P. Platt "grossly and arbitrarily" abused his discretion.

United States Attorney Viosca said he did not know whether any indictments would be returned tomorrow or Monday, the usual "indictment" days.

The jury yesterday heard testimony on the alleged New Orleans "tax assessment reduction racket," in which charges were publicly made last spring that certain persons were effecting assessment reductions "for one-half the savings" in taxes.

For the past few days, Viosca said, Leon D. Hubert, Jr., and J. Skelly Wright, two of his assistants, have been studying a large volume of reports submitted by Paul Hansen, agent in charge of the regional WPA investigative unit.

He said they involve "several highly placed" Louisianians and, while declining to identify them, he said the reports will be given to the grand jury as soon as the "tax racket" case has been presented. He also said further testimony on "hot oil" investigations and mail fraud probes are scheduled for later presentation.

The grand jury's present schedule calls for adjournment on October 17, returning on November 1 unless some situation arises for a special session. The two-week "vacation" was decided upon because the jurors have been in almost constant session since June 30.

Viosca said that if indictments are returned tomorrow, they would be received by Judge Rufus E. Foster, senior jurist of the United States fifth circuit court of appeals, in place

BREMEN IN RUSSIAN PORT, SAYS SEAMAN

(Copyright, 1939, by The Associated Press)

AMSTERDAM, Oct. 12.—(AP)—A Netherlands seaman on the German liner Bremen declared today the vessel reached Murmansk, north Russian port, after a thrilling voyage during which she flew the Soviet flag and preparations were made to destroy her rather than allow her to fall in British hands.

E. Post, a cook and only Netherlands seaman on the Bremen when she sailed August 30 from New York, told his story in a copyrighted interview with the Amsterdam newspaper Het Volk after his return to his native country.

He said Captain Adolf Ahrens skirted the blockade of the British fleet with barrels of gasoline on deck ready for burning the vessel rather than allow her to be captured by the British.

The voyage was veiled in such secrecy, he said, that the crew did not know the liner's destination, all lights were extinguished during the north Atlantic crossing and the wireless answered no calls.

Post said that after some days at sea he realized the Bremen was sailing far to the north, because of the cold weather, but that he had no idea where she was going.

There were no passengers or cargo and every precaution was made to save the crew in event of an attack.

The vessel was painted gray as she sped across the Atlantic.

TO PLAN LITTLE CHICAGO FROLIC

Executive And Advisory Committee To Meet Friday Afternoon

The people of the mythical city of Little Chicago, whose antics in the realm of political comedy surpass those of the daffy Dodgers of Brooklyn in the realm of baseball, are getting ready for their annual municipal election.

The election, scheduled for November 8, will be preceded the day before by a parade of politicians and anyone else desiring to march or ride therein. Meanwhile, as usual, a street carnival will be in progress in Little Chicago. It will start November 6 and continue through November 11.

The dates for the election and parade were set and arrangements for the carnival were made by the Little Chicago executive committee, composed of Jack Allen, chairman, J. H. Birdsong, P. G. Rowe and W. C. Holstein.

The remainder of the plans for the frolic, which, at a recent meeting of municipal, parochial, business and civic leaders, was pledged the support of Monroe and West Monroe, will be outlined at a meeting of the advisory committee named to assist in expanding the two days of unfettered fun into a Twin City celebration.

A joint meeting of the executive committee and advisory committee has been called for 2:30 o'clock Friday afternoon at Hotel Frances.

The advisory committee is composed of Mayor Harvey H. Benoit of Monroe, Mayor Harry Williams of West Monroe, Police Jury President J. Lloyd Warren, President A. O. Evans of the senior board of the Chamber of Commerce of Monroe and West Monroe, President Lee Hodges of the junior board, Chairman H. R. HELP KIDNEYS PASS 3 PINTS A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Kidneys remove excess acids and poisonous waste from your blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

After A Man's Heart

by JEAN RANDALL

YESTERDAY, Buff tastefully decorates her new apartment, and Mrs. Webb cooks delicious dinners for Tim and George. Tim is beginning to feel that Buff is carrying the joke about being engaged to him, a little too far.

Chapter 13

Parental Pressure

BUFF'S parents arrived in Boulder the next day, Lance raging at having to come for his recreant daughter, Eleanor uneasy over a situation which she did not in the least understand. Buff made it all clear to them both in half an hour's talk.

"Tim needs me," she said. "And I—I need him. That's really all there is to it, dears."

Lance, hitherto restrained by his wife's hand on his, burst into exclamatory speech.

"All? *All*? It's neither the beginning nor the ending. Buff, are you sure you're well? You may be coming down with one of those lingering illnesses; walking typhoid, perhaps. At any rate, I want to see this fellow; ask him some questions. Who does he think he is, anyway, that he expects to marry my daughter on such short acquaintance, and without my consent? Why, I've never so much as laid eyes on him! Your mother and I——"

Eleanor again silenced him. "There's really only one question to be asked, Buff darling. Do you love him?"

Buff raised clear eyes to hers.

"I don't know, Eleanor, truly I don't. All I know is that I want to take care of him. He's been so terribly hurt"—her own sensitive face reflected Tim's misery—"and he has nobody but George Weekes to stand by him. And—and I do need an occupation!"

"Marriage should be something more than an occupation, dear. It is an occupation, of course; a full time job for any woman. But unless there's romance—glamor—to start one off with, I doubt if it would be bearable."

They were talking together, mother and daughter, as if Lance were not present, a fact he resented.

"What's the man's name?" he demanded. "Corliss—oh, yes, I remember you wrote us about him. Tell me why he's been hurt. Why should he be hurt? He's a grown man, isn't he? Men don't allow themselves to be hurt. Men are first of all—that is, if they amount to anything—self-reliant. Look at me for example. Do I need help? Does anyone look after me? On the contrary I spend my life protecting my wife and daughter."

His wife and daughter exchanged smiles. Buff launched into a detailed account of what had happened to Tim. She knew and counted upon her father's easily aroused sympathy for the unfairly treated. Nor was she disappointed in this case. By the time she had finished Lance was boiling with rage at Iris DeMuth, her partner in deception, the entire citizenry of Boulder, its government, its local ordinances and state laws. He was with difficulty restrained from hunting up a lawyer and filing charges against several people, George Weekes included.

"*He* should have realized what was happening," he said illogically. "He was here while poor Corliss was in Idaho Springs, you admit that yourself!"

Eleanor remained unmoved by the story of Tim's various misfortunes. Usually the softest-hearted of women, she was definitely antagonistic toward this man who had usurped her parents' place in Buff's heart.

'Incredibly Stubborn'

"IF IT is her heart and not her maternal complex," she mused. "Heaven knows I want a happy marriage for my child, but how do I know this would be happy? It doesn't sound so. The only thing in the man's favor is that so far he has held out against Buff." She paused to reflect on this amazing fortitude. She and Lance knew what it meant to oppose the girl when she set her mind as well as her conscience on any action. "He really must be a strong person," she admitted reluctantly. "Or else incredibly stubborn."

Mrs. Webb greeted the Carrolls with joy, declaring it was a real pleasure to have the artist to cook for. She served them a lunch which banished the last of Lance's ill humor, and he set forth to call on Tim in his pleasantest mood.

"I wish he wouldn't go," Buff said unhappily. "This is my own problem. I don't want any parental pressure applied. If Lance chooses to play the heavy father——"

"Darling, don't you know him better than that? He'll probably fall into conversation with Mr. Corliss——"

"Tim!"

"Well, Tim, then," she sighed. "He'll probably get Tim to talking of mining and miners and before either realizes what is happening Lance will have whipped out his notebook and started some little sketches. Then one of two things will happen—as you should know by this time; either Lance will walk away absent-mindedly, without remembering even to thank Tim, or he'll hook a friendly arm through his and bring him along back here to dinner. The one thing you can depend upon his not doing is to ask Tim his intentions."

Buff shook her head mournfully. "I know them all too well. He's made them perfectly clear to me. That Iris person has turned him definitely against marriage. Added to that, he's in debt and he thinks I'm an heiress. Also he believes me to have left kindergarten year before last and consequently I'm too young to be taken seriously."

"He knows about your plays—your short stories?"

The girl shrugged. "The achievements of a precocious child—if he thinks of them at all." She left her chair and came to curl up on the floor at her mother's feet. "Eleanor, tell me! How did you know whether you were in love with Lance or not?"

The older woman put a tender hand on the golden head.

"Darling, if you're in any doubt about the matter you simply aren't, that's all. Being fond of a man, wanting to look after him—that's not enough. The old rule of not considering whether you can live with him but whether you can live without him still seems to me the best touchstone. Buff, can you—can you live without Tim?"

There was a moment's silence, then Buff raised a flushed face.

'Head Over Heels'

"NOT happily," she said, her eyes meeting Eleanor's squarely. "If that's really the touchstone then I'm sunk—head over heels about Tim. When I wake in the morning I try to imagine where he is, what he's doing. When I plan the meals I think what he'd like or not like, even though I know he'll not be here to eat them. When he and George come to dinner I seem to hear only what Tim says, though it's George who does most of the talking. A—a sort of light comes into the room with him, the sound of his voice makes me shiver a little. His face—and I know with my mind that he's really not at all handsome!—seems to me the most attractive I've ever seen. Does—does all this make sense to you, Eleanor?"

"There's no sense in an attack of first love, Buff dear. I wish I could feel this is only that; an attack of sentimental measles from which you'll recover."

"But you don't think so?"

Mrs. Carroll's face was sad. "I'm afraid not, my Buff. You always were a loyal little thing. You've held on to your friendships through travel, change of any kind. Oh, how I wish I'd never let you go out to close up the ranch!"

"Wait till you see Tim," was the confident reply. "Then you'll be dancing perfect jigs of rapture that fate sent him my way."

Not even a mental picture of herself indulging in this form of activity could banish the look of worry from Mrs. Carroll's face.

"Buff, darling, before this goes any farther—before you settle down to what really amounts to a siege—use your common sense. If this man doesn't love you—and it would seem that he doesn't in the face of what he's done and said—the wise thing, the only thing to do is to leave here as soon as possible. A change of scene, new friends, your playwriting—you need them all to cure you of what may be merely infatuation for the only man who's needed you besides Lance; or for what may be genuine love, unrequited." She smiled faintly at the old-fashioned word. "He's just recovering from an unhappy affair with a woman. Usually a man's heart is rather easily captured on the rebound in such cases. If it isn't, then he's pretty apt to go through life without marrying. Better come back with us to Chicago for a while, dearie!"

"Mother"—Eleanor started a little at the unusual form of address—"don't you believe it's really the woman who selects the man rather than the other way about? Think back to your own girlhood. Hadn't you decided on Lance as a husband ages before he—proposed to you?"

An unwonted pink crept into the older woman's face.

"Y-yes; but then he'd been paying me marked attention, Buff; courting me, as we called it then."

"Nevertheless you had settled it in your own mind before he spoke. You made it easy for him to see you. You employed all sorts of feminine arts to win him even though you weren't honest enough with yourself in those days to admit what you were doing. True?"

"True, I'm afraid. But Lance wanted me, and this Tim Corliss——"

"Is going to want me, too. You wait," predicted Buff confidently.

Continued tomorrow.

FARMERS TO HOLD REGULAR MEETINGS

To hold regular community farm meetings was decided at a parish-wide farmers' meeting held Wednesday night at the courthouse, according to D. L. Bornman, Jr., county agent. Eighteen Ouachita farm representatives attended the meeting, called jointly by the Farm Bureau and Agricultural Extension service.

Objectives and accomplishments of the Farm Bureau and the value of organization to farmers were discussed by Milton C. Tainter, state secretary of the Louisiana Farm Bureau, and C. W. Davis of the Agricultural Extension service, Baton Rouge.

Temporary plans for a parish-wide membership campaign were made. Appointment of committees will be announced by T. T. Jones, president of the Ouachita Parish Farm Bureau.

MRS. STARK DIES

ORANGE, Tex., Oct. 12.—(P)—Mrs. Nita Hill Stark, 49, former national grand secretary of Pi Beta Phi sorority, and the wife of the capitalist, H. J. Lutcher Stark, died here last night.

One inch of rain over one acre of land amounts to 6,272,640 cubic inches of water.

BICYCLE STOLEN

Theft of her son's bicycle was reported Thursday morning by Mrs. O. L. Siscoe, 400 Pargoud avenue. The bicycle was described as a red Snell, size 28 and was said to have been taken some time between 8 p.m. Wednesday and 7:40 a.m. Thursday.

JURISDICTION IS UNDER FIRE

Leche And Others Claim Lincoln Parish Lacks Legal Status In Case

RUSTON, La., Oct. 12.—(Special)—Motions of exception to jurisdiction of the Third district court here filed Wednesday by five men charged with financial irregularities in the construction of Leche hall, Louisiana Tech's administration building, and District Judge E. L. Walker set October 31 as the date to hear arguments in the cases.

Appearing with their counsel for brief arraignment proceedings here Wednesday morning were all five of those indicted, including former Governor Richard W. Leche; Leon C. Weiss, F. Julius Dreyfous and Solis Seiferth of New Orleans, members of the architectural firm furnishing the plans for the Tech building; and Monte E. Hart of the Caldwell Brothers and Hart contracting company of New Orleans, which built the structure.

Summa Caldwell, member of the contracting firm, recently refunded to Tech the sum of $32,000 by cashier's draft in restitution of $27,000 which had been added to the original contract for the Tech building and in repayment of an additional $5,000 for "unauthorized extras." He was not indicted in the recent grand jury investigation here.

The Lincoln parish grand jury on September 30 returned three bills indicting the five men. One bill, charging the obtaining of $27,000 "by means of false pretenses," indicted Leche, Weiss, Dreyfous, Seiferth and Hart.

The same five men were billed in another indictment for allegedly operating a confidence game, with the sum of $27,000 involved.

The third indictment alleged Weiss, Dreyfous, Seiferth and Hart "did wilfully, feloniously, maliciously and unlawfully receive and have in their possession $55,955 that had been feloniously by false pretenses obtained from the state of Louisiana, the Louisiana state board of education and Louisiana Polytechnic institute, they knowing the same to have been obtained by false pretenses."

NEW REGAL LABEL INTRODUCED HERE

Regal beer with the new metallic label that won't wash off was introduced here Wednesday night by the American Brewing company of New Orleans at a meeting of employes of the Ouachita Candy company, local distributor of the beer.

Here in connection with the meeting was W. C. Hartwell, general sales manager of the brewing firm. Introduction of the new label to retailers and consumers started Thursday, with a crew from the brewing company assisting the candy company salesmen.

No Opportunity Neglected To Tell Of Gly-Cas

Arkansas Police Captain Rejoicing In The Thorough Results Gly-Cas So Ably Made Possible For Him

"Gly-Cas is the first medicine of all I tried that was about to help me," said Mr. W. W. Cross, 907 Liberty street, El Dorado, Ark. "Faulty elimination had been a worry for me for years upsetting my digestion until I could not eat a single meal without attacks of indigestion following. Frequent bladder action would not allow me a good night's sleep and I was continually tired and worn out. Various aches and pains began developing over my body and what I endured cannot be explained in words. It seemed there was no relief at all for me until I began Gly-Cas . . . it was just what I should have had years before.

MR. W. W. CROSS

"As yet I have taken only two boxes of this herbal remedy and am feeling fine," continued Mr. Cross. "I am now getting proper elimination of intestinal impurities, my appetite is restored and I am eating the foods I want without any ill effects afterwards. Those dreadful muscular aches and pains have also been relieved, I sleep well without any disturbances and feel the best I have in twenty years. I cannot say enough for this wonderful remedy when it brought me such pleasant and long-desired results."

Gly-Cas is sold by Phoenix Drug company, 348 DeSiard street, this city, and by the leading druggist in surrounding towns.—Adv.

HUNNICUTT TELLS OF FIRE HAZARDS

L. J. Hunnicutt, city fire inspector, was the principal speaker at the luncheon of the Kiwanis club held at Hotel Virginia Wednesday noon, when the club presented a fire prevention program.

Mr. Hunnicutt called attention to unnecessary loss of property and life because of carelessness. In many homes he said there are hazards that can be easily removed. Among the number he cited the accumulation of trash on premises, leaving oil soaked rags in buildings, the use of pennies for fuse plugs, insufficient insulation around hot water heaters and many other conditions that arise through carelessness.

The club voted to approve New Orleans as the Kiwanis International convention city in 1941.

HOWARD MARX PLEDGED

NEW ORLEANS, Oct. 12.—(Special)—Howard Marx of Monroe has been pledged by the Sigma chapter of Zeta Beta Tau, national social fraternity at Tulane university, it was announced today by officers of the chapter. The 18 social fraternities announced the pledging of 337 men, the longest list in the history of 105-year-old Tulane.

No Trouble

It's nice to know that there isn't going to be any trouble over the explorations and claims in the Antarctic. Admiral Byrd [illegible] fine his explorations this winter to areas in which the British and American [illegible] any conflicts [illegible] when Britain is in a better position to give attention to them.

That is certainly soothing, for it's certain enough that if claims to this barren and yet unexplored waste could not be adjusted without trouble there would be little hope of territorial adjustments in crowded Europe or the more-inhabited parts of the globe.

The problem of the Antarctic, fortunately, is one world problem that can be taken coolly.

Sentimental Touch

They say the Americans are hard-boiled, crass materialistic.

No doubt. But once in a while something turns up which makes us wonder. In West Grove, Pa., the other day, a red rose changed hands. It was payment in a commercial transaction, no less prosaic than the rent.

The rose was handed to a ninth-generation direct descendant of William Penn, Quaker founder of the state, as rent under a quaint deed signed 196 years ago. There are other such "rose rentals" in other Pennsylvania communities, on land originally deeded by the great Penn.

Even the famous "token payments" of pelts made by the Hudson Bay company in Canada to the king have material value.

But a rose! A rose, as Miss Gertrude Stein has so pungently reminded us, is a rose is a rose is a rose.

In Justice To The Press

Will Hays' office at Hollywood has demanded that motion picture producers stop caricaturing the American newspaperman. No longer will the scribe be portrayed on the screen as "a drunkard who goes about 'cadging' drinks and generally conducting himself in a thoroughly offensive and unethical manner."

And to this the journalists of the nation will shout a hearty "Amen!" Modern newspaper life has no room for the irresponsible Bohemian of tradition. It is an exacting field of activity, and the sooner the movie fans of America are made aware of the fact the better it will be for public opinion as well as for the reputation of a craft that is adhering to the highest of personnel standards.

We read of a savings account of $15 opened in 1819 has increased, through interest, to nearly $4,000. Another one of those get-rich-quick schemes, no doubt.

Our Children

By ANGELO PATRI

WEANING EARLY

[illegible]

Mothers of such children have to work delicately, but firmly, to loose the clutching hands and the clinging minds. This is not done by scolding and threatening and force. These means are likely to fasten the difficulty. The child must be freed in a series of pleasant experiences so that he learns that he can be both safe and happy apart from his mother.

It is good to begin with a brief experience. Start when the child begins to play about the floor. Select a comfortable place, in sight of mother, but separated from her by some distance. Give the child something to amuse himself with and leave him to his own resources. He should play by himself, without reference to anybody else for at least fifteen minutes. Gradually the time is lengthened, the distance increased until the child is able to take care of his own amusement for a couple of hours in another part of the house or garden. He is usually able and glad to do this by the time he is four years old if he is trained that way.

This mental training is the essential weaning of the child's mind from that of his mother's. Some mothers forget about it altogether. They wean the child from the breast or the bottle and give no thought of the mental dependency that is fastening itself upon the little one. The mental weaning is quite as important as the physical one and much of the child's future success and happiness depends upon it.

Now and then we find a mother who says, "I love to keep my children babies as long as I can. They grow up soon enough." That is too bad. Children do not grow up soon enough if they are not trained to grow up. It would be too bad to handicap a child for life just because one liked to tend a baby. A baby of twenty is a tragedy.

That 'Permanent' Board

There was none. While Woodring was inspecting the Panama canal, Johnson and Acting Secretary of the Navy Edison blossomed out with an imposing war resources board. It was to be a "permanent" board. It was headed by young Edward Stettinius, chairman of Morgan-controlled United States Steel. It became the president's pet and Johnson's pride. Woodring again went into the "blackout."

But there was public and New Deal reaction against the administration taking so much of "big business" into its lap as was represented on the war resources board. Its ramifications reached into the neutrality fight in congress. Abruptly the president announced the "permanent" board was not permanent. He accepted its report and ordered it dismissed.

There are political reasons suggesting it may ride on peaceably until Roosevelt's administration ends. Woodring's influence in Kansas and elsewhere is important. Johnson, an ex-commander of the American Legion, is likewise important from the veterans' angle.

And just now President Roosevelt seems not likely to disturb the trend toward party harmony unless a situation grows out of the war such as would lead him to compel harmony in the war department.

Many players under the excitement of the game toss away the headgear. This may be a magnificent gesture but a coach should never permit a player to play without a helmet. MORE CAN ENROLL IN CCC IN STATE

Announcement has just been made by A. R. Johnson, state director of public welfare, that there is need for additional white enrollment in the Civilian Conservation camps of the state.

He advised M. B. Bowman, district director of the intake and certification bureau, that a special enrollment will be held at the national guard armory, Thursday, October 19. White youths between the ages of 17 and 23 who are interested can apply at the offices of the intake and certification board at 804 South Grand street.

Because of the short time available for the taking of applications and making investigations, Mr. Bowman requests that all applicants bring with them some definite proof of age, such as birth certificate, family Bibles, school records and such other information as is necessary before enrollment.

HOLLYWOOD, Oct. 12.—Consider the case of Lloyd Nolan. About a year ago when George Raft and Paramount staged a final tiff, the studio moguls decided that Lloyd, who had been going great guns in character roles, should be converted—presto, change!—to a romantic leading man and installed in Raft's vacated spot. After playing a couple of romantics—and playing them exceptionally well—Nolan rebelled, asked to be released from his contract, and was of course promptly dubbed "crazy" by a good many Hollywoodites.

It seems to me that not Nolan but the Hollywood system is crazy. [illegible]

Whiteman's Weigh Of Life

A fear that haunts many of the healthy, but intense workers is the gaining or losing of weight. Paul Whiteman, on his doctor's orders, shelved many, many pounds. The subconscious fear that he will wake up one morning with them all back again makes him weigh himself a dozen times a day. Life, for Whiteman, is a succession of scales—and not musical ones either.

On the other extreme, Mervyn LeRoy is haunted by the dread of a nervous breakdown. He, too, weighs himself ad infinitum and should there be a loss of eight ounces LeRoy puts himself on a cod liver oil diet for a week.

Gamblers To The End

Two of the most companionable ailing wretches are Sidney Skolsky and Lew Brown, the producer. The story is now ancient of how Skolsky, having induced two other ailing buddies to go with him and have their blood pressures taken, halted before the doctor's door and declared: "Remember—low man pays."

Even better is the tale of how he and Brown sat in Dave's Blue room from three in the morning till six, complaining bitterly to each other about the state of their health. After listening to one of Skolsky's most harrowing symptoms, he leaned forward and patted him on the shoulder.

ISTRIAL IS OMACK RULING

y Disagrees In Trial Of Former Banker And Associate

mistrial was ruled in the case of les M. Womack and John Hugh Henry in United States district court here last night after the jury, which had been in deliberation since late Tuesday night, had failed to reach an agreement.

Womack, resigned president of the People's bank of Chatham, was accused by the government of defrauding the bank of $2,000 and making false entries in banking reports to the state banking commission. Henry, an oil scout, was charged with aiding and abetting Womack in the alleged fraud.

The jury returned to the courtroom for a short time about 5 p.m. yesterday to hear the judge's charge once more. Judge Gaston Porterie read the charge as transcribed by the court reporter and the jury retired once more. However, the body was still unable to reach an agreement at 8 o'clock last night when Judge Porterie ruled a mistrial.

The government charged Womack had defrauded the bank by issuing a certified check to Henry on June 7, 1938, when he allegedly knew Henry's account was overdrawn at the bank. He was charged in three other counts of making false entries in bank reports.

Henry was charged with aiding and abetting fraud by asking for and accepting the certified check for $2,000.

Womack's defense was that he had not knowingly tried to defraud the bank, and that when he learned the bank would lose as a result of the transaction he made the amount good from his personal funds. Several character witnesses also testified during the trial that Womack had lived most of his life in Jackson parish and was a "good citizen."

In his charge to the jury Judge Porterie pointed out that Henry could not be found guilty of aiding and abetting in the alleged crime unless Womack was convicted of fraud. "If there is no fraud," Judge Porterie said, "then he cannot be guilty of aiding and abetting fraud."

CHAMPION TYPIST HERE

Albert Tangora (above at typewriter), seven times winner of the title of world champion typist, gave a number of demonstrations of his ability while in Monroe.

World's Champion Typist Gives Demonstration Here

'Take It Easy,' Is Advice Given Students By Albert Tangora

By Fay Hunt

"Take it easy."

Just three little words, but according to Albert Tangora, holder of the official all-time world's typing record, they are the keys to typing success. And Albert ought to know—he's held seven world's championships with his particular keyboard manner.

Mr. Tangora, technical adviser for the Royal Typewriter company, Inc., on a week's tour in Louisiana, gave demonstrations at Ouachita Parish High school, Northeast Junior college and Bish Mathis institute Wednesday at the invitation of the Standard Office Supply company here. He was accompanied by W. J. Creger, district manager of the Royal company, New Orleans.

Rippling over Royal keys at a speed of 141 words a minute for one hour from unfamiliar copy with an accuracy rating of better than 99 per cent perfect in 43,809 strokes, Tangora set a world's record in typing which remains unchallenged. That was in 1937. He also made championship typing history in 1923, 1924, 1925, 1928, 1935 and 1936.

The keyboard ace demonstrated to typing students here the idea of continuity in writing. He stressed the value of coordination of eye, brain and fingers in touch typing. With coordination, control, concentration and rhythm, typing loses all possible drudgery, Tangora says, and the less drudgery the more speed.

With gasp-inspiring skill and dexterity the champion showed students the correct technique in operating the mechanics of the typewriter, such as returning the carriage, paragraphing and changing paper. Losing less than one word's time, he changed paper in three-fifths of a second. Everything's on the square in typing, according to Tangora—the machine's square, set squarely on the table and the typist sits squarely before it with his fingers squarely on the keys.

Tangora claims to have built up such a vocabulary on the typewriter that his eye sees a word and his fingers recognize it instantaneously. Writing from printed copy for one minute, Tangora simultaneously added a four by five column of figures, gave the accurate total and attained a speed of 138 correct words. However, he advised students not to attempt that trick unless they preferred to combine their typing and bookkeeping classes.

Diagnosing typing as an interesting racket, Tangora at 13 decided to win a world's championship. So he went to school one day and took a course. That was in his home town, Evanston, Ill., and it took him seven years to work up through novice and amateur meets to the world's title. At 20 he won his first world's meet in New York City.

The number seven seems to be Tangora's bug-a-boo, or maybe his rabbit's foot. Seven times a champ, he is the seventh child in his family, born in the seventh month, has seven letters in his name, took seven years to win a title, out-typed seven professionals participating in the contest in which he won his seventh title at 7 p.m., and he was number seven with his paper bearing the identification number 77,777.

Tangora says he's good for nothing but typing, but his compensation for that runs into seven figures.

E. J. BROWN PLANS EXTENSION COURSE

E. J. Brown, instructor in social science at Northeast Junior college, announces that he will conduct extension classes in early Louisiana history to be held every Tuesday at 7 p.m. at room 210, of the main administration building at the college.

The study will comprise early history of the state up to 1812 with emphasis on the political, social and economic growth, with the transition from French and Spanish influence to the period of statehood. There are no pre-requisites essential for the pursuit of this study and university credits are obtainable.

Further details can be had by telephoning or writing Mr. Brown at the Northeast Junior college.

CONNER QUALIFIES

BATON ROUGE, La., Oct. 12.—(AP)—H. B. Conner, state treasurer from 1928 to 1932, announced that he had qualified as a candidate for state auditor in the January 16 state primaries. He asserted that his candidacy was based on record of his past political life.

Bulldogs, Undaunted By Defeat, Leave For Birmingham Tonight

[illegible] Bowling Green last week.

[illegible] Coach Davis [illegible] Western Kentucky [illegible] at Bowling Green.

[illegible] take a good Tech team to [illegible] the Birmingham Panthers, Coach Davis pointed out. Although the Alabama college is reported to be [illegible] of inter-collegiate football, the Panthers this season held Auburn to a 6-0 score and nosed out Loyola 7-6. They are said to have a high class grid squad, well rounded in all departments of the game.

The Bulldogs this week accordingly are being put through generalized practice, with some emphasis on offensive drill.

With several of the Techmen wearing bandages as hangovers from their Bowling Green experience, Coach Davis said some changes probably would be made in the Bulldogs' starting lineup against the Birmingham-Southern team.

Quarterback Ora Merriott, bothered with a rib injury, may be replaced by Fred Michael. Tom Goodgame and Luther Smith may open as guards instead of Paul Bonin and Jack Jaggers, who are slowed down with knee troubles. The fullback post has not been decided, with the job resting among Pirkle Vise, Ed Wendling and Henry DeBrock. James Zoeller will likely get the nod at right halfback. Pat Meeks and Bob Phillips will resume their duties as tackles, Sam Gooch and Gordon Adams as ends and Harmon Burgess as center. James Tinsley probably will open the game at left halfback.

'IRON MAN' GEHRIG GETS CITY OFFICE

NEW YORK, Oct. 12—(AP)—Lou Gehrig, the glass of fashion for the athletic youth of America and the mould of form at first base for the dashing New York Yankees until his tragic semi-invalidism, has a new job.

The ailing, graying "Iron Man" of 36 will put his talents to the correction of the errant and wayward.

By appointment today of Mayor LaGuardia, he becomes a city parole commissioner at $6,000 a year and already is deep in the study of penology and human correction.

"I believe," said the mayor, "that he will not only be an able, intelligent commissioner, but that he himself will be an inspiration and a hope to many of the younger boys who have gotten into trouble.

"Surely the misfortune of some of the young men will compare as trivial with what Mr. Gehrig has so cheerfully and courageously faced. He expects to devote his life to the public service."

And thus the retiring captain of the perennial World Champion Yankees ends a career in baseball that carried him through 2,130 consecutive games, from that day in June, 1925, when he took over first base from Wally Pipp, until the sad day early this last season when he voluntarily benched himself and went to the Mayor clinic to learn that he had a subtle form of paralysis that demanded conservation of his muscular energy.

Neither team has been defeated this season, and both elevens reached the conference championship playoff last year with the Tensas Tigers eliminating the locals. The playoff game last year marked the beginning of Clarks-Waterproof rivalry. Last week the Lumberjacks defeated the Class A Natchitoches team, 25 to 0.

MORE THAN A MILLION BARRELS!
A record attained by no other Kentucky distiller!

Early in 1939 the millionth barrel of GLENMORE distillation went to the ageing rack — establishing an all-time record for any Kentucky distillery. The significance of this millionth barrel goes far beyond the production record it established — for it is the greatest tribute ever paid by the American public to the product of one Kentucky distiller.

Silver Label—90 Proof

This outstanding public approval accorded GLENMORE products is easily understood. Through two generations, there has always been the hand of one family at the helm, one precious formula used and one single standard of high quality maintained.

If you are one of those who seek a fine whiskey, try a GLENMORE product. You will better understand why this institution today stands alone in Kentucky history with a record of more than a million barrels of experience behind it.

BIG TEN GRID TEAMS MAY BE GIVEN 'RIDE'

However, Five Grid Defeats Already Marked Up Against Members

By Earl Hilligan

CHICAGO, Oct. 12—(AP)—Big Ten football may be taken for a "ride" this season—on a nation-wide itinerary.

The season is only two weeks old, yet teams of the Western conference have been forced to accept a surprising record of five defeats and two ties in 13 games with non-conference opposition. And the schedule indicates that before the season ends the Big Ten, generally regarded as the country's strongest all-around athletic circuit, may have taken it on its gridiron "chin" from teams in almost every section of the country.

In the 13 games with "foreign" opponents thus far victories were chalked up by Wisconsin and Michigan October 7; Illinois was tied by Bradley and Indiana got a draw from Nebraska.

Chicago's defeat by Beloit and Purdue's loss to Notre Dame on September 30 were followed by the "black Saturday" of October 7, when Northwestern was blasted 23 to 0 by Oklahoma, Wisconsin lost to Texas and Nebraska [illegible] Minnesota's hopes for national honors.

M'KEEN'S MAROONS SURPRISE TEAM IN SOUTHEAST CIRCUIT

STATE COLLEGE, Miss., Oct. 12—(AP)—When the experts sit down to pick this week's winners, it might be well to keep in mind that Coach Allyn McKeen, who last year had the nation's highest scoring undefeated and untied team at West Tennessee Teachers college, sends a Mississippi State team which has not yet been scored on this year against Auburn Saturday.

The fact may have been overlooked in the general appraisal of the surprising strength of southern teams this year, but it just might be the Auburn Tigers will be the victim of an unpleasant surprise at Birmingham.

For the coach whom Major Bob Neyland of Tennessee pointed out as having the best prospects in the coaching field of any man he ever coached has turned up here with what he admits are "better players than they thought we had," and their record this year seems to lend weight to his words.

Thus far the Maroons have overwhelmed a favored Arkansas team 19-0 the week before the Razorbacks defeated national championship Texas Christian university, run over Howard 45-0 or four touchdowns better than Alabama beat the same team, and defeated Florida 14-0.

But whether or not State takes Auburn, the spectators may be kept on their feet most of the afternoon by the Mississippians' thrilling and spectacular type of play.

The principal man to watch will be Frank "Bunk" Chambers, 160 pounds of [illegible] explosive who ran 70 yards [illegible] against Arkansas on a fake punt. Harvey Johnson, who scored a spectacular 75-yard punt return and [illegible] of 21 and 45 yards against Howard, a big fast and tough [illegible] Billy Jefferson [illegible]

tions and assigned civil guards to strategic points.

(In Moscow, meanwhile, a Finnish delegation headed by Dr. Juho Kusti Paasikivi was expected to go to the Kremlin today for political and economic talks.

(It was not known what proposals would be laid before the Finns but they had the example of the new Russian pacts with Estonia, Latvia and Lithuania and it was believed they would refuse to be rushed into any agreement, especially one involving territorial concessions.

(Sweden apparently was backing the Finns, while in Washington, the possibility of United States action in the event of a crisis was under discussion in official quarters.

(Should the United States participate in a diplomatic attempt to prevent a conflict in northern Europe, President Roosevelt might issue a peace appeal both to Helsinki and Moscow, as he did to Berlin and Warsaw last August, or the state department might reaffirm the United States' refusal to recognize the acquisition of territory by force.)

Helsinki authorities announced that work would be started today on the digging of air raid shelters in the capital, a city of about 293,000.

The grim-looking sandbags which have been piled up in other European and Scandinavian capitals for weeks also were expected to appear in this troubled corner of the northland.

The speed with which the nation's efforts were being put in order for a possible emergency supported the declarations in responsible Finnish sources that the nation would oppose military and economic agreements such as its Baltic neighbors yielded and if necessary would resist.

Commentators stressed Finland's [illegible] the so-called "neutrality bloc" of northern states and the Helsinki newspaper Uusi Suomi declared:

GERMAN THRUSTS AGAIN ARE REPULSED

PARIS, Oct. 12—(AP)—German patrols [illegible] French outposts from the Moselle to the Rhine today, continuing a series of thrusts reported to have cost the Nazis hundreds of casualties in the last three days without gaining an inch of ground.

French advices which told of "very [illegible] in one unidentified sector during the night said the latest assaults had been repulsed despite heavy preparation by German artillery.

At no point had the Germans been successful in attempts to take prisoners, according to these reports. The French, entrenched in positions from which they raked the advancing Germans with machine gun fire, described their own losses as "slight."

As the fighting increased in scope, with artillery thundering along the 100-mile front, the weather—which has been foggy and rainy—suddenly turned cold.

The French reported their reconnaissance planes had taken some "very interesting" photographs of German positions but said no Nazi airmen had attempted to cross the lines since October 10, when one was shot down.

(This morning's German communique said a French plane had been shot down in an aerial fight south of Lauterbourg, France. It also reported "minor reconnoitering, troop and artillery activity" on the western front and "a little air scouting activity over the North sea and in the west.")

U. S. DIPLOMATIC ACTION DISCUSSED

(By Associated Press)

United States diplomatic action in apprehensive northern Europe was discussed as a possibility today as Finland waited to hear what expanding Soviet Russia wants of her.

Official Washington quarters talked of such a course in event of a crisis between Finland and Russia.

A Finnish delegation is in Moscow for vital political and economic talks. If an outright Baltic conflict threatens, one possibility considered in Washington was that President Roosevelt might issue a peace appeal to Moscow and Helsinki as he did to the German and Polish heads of state last August.

Norway, Sweden and Denmark were understood to be ready to make a move to preserve peace in the north.

Finland prepared for the worst by moving civilians from her capital and perfecting air raid defenses. The Finnish press expressed determination to preserve the nation's neutrality.

Anxiety stemmed from Russian expansion of the past two weeks which has made Estonia, Latvia and Lithuania virtual Soviet protectorates.

The chief Finnish delegate to Moscow, Dr. Juho Kusti Paasikivi, was expected to return to Helsinki from Moscow after he learns what the Kremlin has in mind.

Neutral Scandinavian nations were said to be urging France and Britain to make peace with Germany so the Reich could help check Russian expansion in the Baltic.

Though Germany's war chiefs were shaping their plans on the theory that war on the western front must run its course, Nazi government leaders waited for some hint from Prime Minister Cahmberlain to see whether there is a possibility of peace soon.

The German news agency published a report claiming mastery of the North sea despite Britain's maritime blockade.

Increasing local operations on the western front were reported by the French, who asserted German patrol attacks had failed to gain "an inch of ground" in the past three days.

Artillery thundered along a 100-mile front, but there still was no major offensive action.

A German communique said one French plane had been shot down on the west.

Italy sent a new ambassador to London, and a British news agency dispatch said he was bearing word of Italy's views on proposals for ending war and calling an international conference.

The British Press association reported the 13,615-ton German steamer Cap Norte had been captured by the British navy. The vessel left South America September 17.

Most state offices observed the legal holiday and banks were closed throughout the state. Classes continued, however, at Louisiana State university.

GRAND JURY SESSION DELAY IS EXPECTED

NEW ORLEANS, Oct. 12—(AP)—Further sessions of the Orleans parish grand jury will likely be delayed until the supreme court has decided the status of two jurors removed by Judge George P. Platt, it was announced today by Conrad Meyer, Jr., assistant district attorney.

Although nine members of the grand jury constitutes a quorum, Meyer said, he considered it inadvisable for the body to return indictments "until the present situation is cleared up."

The two jurors, Sidney DeArmas and Edgar H. Powell, were adjudged in contempt of court and dismissed for the attempted reading in open court of charges of lack of cooperation against District Attorney Charles A. Byrne without obtaining permission of the court to read the petition. The jurors appealed to the supreme court for reinstatement.

In the meantime the federal grand jury resumed its sessions, reportedly engaged in an investigation of alleged diversion of WPA materials to private use.

CHAMBERLAIN ASSERTS PLAN UNACCEPTABLE

(Continued from First Page)

sible to rely upon the unsupported word of the present German government," Chamberlain declared.

Chamberlain said "acts—not words alone—must be forthcoming before we and France would be justified in ceasing to wage war to the utmost of our strength."

"The issue is plain.

"Either the German government must give convincing proof of the sincerity of their desire for peace by definite acts and by the provision of effective guarantees of their intention to fulfill their undertakings or we must persevere in our duty to the end.

"It is for Germany to make her choice.

"We are not aiming only at victory but rather looking beyond it to laying the foundation of a better international system which will mean that war is not to be the lot of every succeeding generation.

"The peace which we are determined to secure, however, must be a real and settled peace and not an uneasy truce interrupted by constant alarms and repeated threats.

"What stands in the way of such peace?

"It is the German government and the German government alone.

"Whatever may be the issue of the present struggle and in whatever way it may be brought to a conclusion, the world will not be the sam eworld that we have known before.

"It is no part of our policy to exclude from her rightful place in Europe a Germany which will live in amity and confidence with other nations.

"On the contrary, we believe that no effective remedy can be found for the world's ills that does not take account of the jus tclaims and needs of all countries.

"Whenever the time may come to draw the lines of a new peace settlement, his majesty's government would feel that the future would hold little hope unless such a settlement could be reached through the method of negotiation and agreement.

"It is not, therefore, with any vindictive purpose that we embarked on the war but simply in defense of freedom.

"It is not alone the freedom of the small nations that is at stake; there is also in jeopardy the peaceful existence of Great Britain, the dominions, India, the rest of the British empire, France and all freedom-loving countries."

[illegible]," he said, "nothing [illegible] presenting the peace of this country. This is going to be a war of strangulation [illegible] all [illegible] and this strangulation relates directly to commerce on the seas.

Germany will wish to cut off British and French supplies, and Britain and France will wish to cut off German supplies. We are trying to adjust our seaborne commerce to that situation."

The neutrality bill would require belligerents to pay cash (or limit credits to 90 days) for American purchases, which they would have to transport in foreign ships. Thus American vessels would be banned not only from the nations at war in Europe but from British and French possessions around the world.

While most of the talk about modification has centered around lifting the ban on American shipping in the Pacific—particularly with Australia and New Zealand—some senators believe that it would be safe to allow trading with belligerent colonies in the south Atlantic and across to South Africa.

Should any of these areas later become "dangerous" for American shipping, it was pointed out that the president, under the provision authorizing him to designate combat zones, could apply the ban on them.

Senators Johnson, Republican, California, and Borah, Democrat, Idaho, principal opponents of embargo repeal, also were working on the compromise shipping clause. Borah expressed the belief that all Pacific shipping could be permitted.

Yesterday's floor debate saw two leaders in the fight against the Roosevelt court bill two years ago take opposite sides in the embargo scrap. They were Senators Burke, Democrat, Nebraska, and Clark, Democrat, Missouri. Both spoke before galleries crowded with tourists.

Burke, replying to Clark's contention that many advocates of repeal felt it was a "safe choosing of sides," declared he saw "no justification on any ground for permitting a law to stand that favors Hitler."

"By hampering the allies in their prosecution of the war," he said, "the embargo favors Germany to the certain extent of prolonging the war for many months, if not years."

Colonel Charles A. Lindbergh, who recently advocated in a radio speech that the United States remain aloof from the war, will deliver a second address on neutrality Friday at 8:30 p.m., central standard time, over the Mutual Broadcasting system.

LOCAL AGENTS PLAN DISPLAYS AT FAIR

Including D. L. Bornman and Mrs. Jewel McQuiller, local agents, 32 of the 64 county agents, together with 26 home demonstration agents will show what Louisiana is accomplishing agriculturally and in a homemaking way through parish exhibits to be displayed at the Louisiana State fair to be held at Shreveport October 21-30, announces J. W. Bateman, director of the Agricultural Extension Division, Louisiana State university.

Annually, approximately 60 agents arrange booths which emphasize the major types of agricultural extension work carried on in the various parishes of the state for the improvement of all farm life. These exhibits compete for prizes offered for best products displayed and for artistry of exhibit and effectiveness in portraying the theme.

RESTRAINT OF TRADE INDICTMENTS FOUND

WASHINGTON, Oct. 12—(AP)—A federal grand jury here returned today the first indictment in the justice department's national campaign against alleged restraints of trade in the building industry, naming one labor union and five labor union officers and representatives.

The indictment charged local 639 of the Drivers, Chauffeurs and Helpers union, an affiliate of the International Brotherhood of Teamsters, Chauffeurs, Stablemen and Helpers (A. F. L.) [illegible] conspiracy to [illegible] in the construction of buildings and other projects in the District of Columbia.

A grand jury in Cleveland, O., began a [illegible] investigation last week and [illegible] have been given for a grand jury to convene in New York November 6. Preliminary investigations also have been begun by department of justice [illegible] in [illegible] other cities [illegible] grand jury action is contemplated.

The department of justice said that [illegible] that construction work on several structures including [illegible] and census buildings [illegible] by a [illegible] members of the International Brotherhood of Operating Engineers, A. F. L., and local 639 [illegible] drivers union.

MARKETS

Livestock

CHICAGO, Oct. 12—(AP)—(USDA)—Salable hogs 12,000; total 14,500; active, [illegible] Wednesday's average; [illegible] higher [illegible] packing sows [illegible] 3.25 freely.

[illegible] edging forward [illegible] week, choice [illegible] steers 11.25, [illegible] yearlings and light steers 11.00, light heifers also bringing good price, largely 9.50-10.75 trade [illegible] better grades.

Salable sheep 3,000; total 6,500; late Wednesday's best 75 lbs. Utah lambs 9.65, other rangers lightly sorted 9.40; today's trade fat lambs fairly active, fully steady, few small lots closely sorted for natives 9.90, bulk good to choice 9.35-65, throwouts mostly 6.50-7.50.

Liverpool

LIVERPOOL, Oct. 12—(AP)—The cotton market opened steady and values improved during the morning session on Bombay buying and moderate trade calling.

In early afternoon transactions further trade calling kept values steady, but later values eased on moderate hedge selling.

Sellers, however, tended to reserve action pending Chamberlain's speech, because of political uncertainties, and hedging was negligible. Consequently Bombay buying and local support brought the close to 1 to 3 points higher.

Potatoes

CHICAGO, Oct. 12—(AP)—(USDA)—Potatoes, 91, on track 412, total U. S. shipments 526; Idaho Russet best, about steady, demand fair, northern stock all varieties best steady. Demand light, ordinary quality weak, demand very slow, supplies rather heavy; sacked per cwt. Idaho Russet Burbanks U. S. No. 1, washed 1.55-65, mostly 1.60, unwashed few sales 1.50-55; Nebraska Bliss Triumphs 85 to 90 per cent U. S. No. 1 1.15-35; Colorado Red McClures U. S. No. 1, burlap sacks few sales 1.75-80.

Poultry

CHICAGO, Oct. 12—(AP)—Poultry live 33 trucks, steady, prices unchanged.

WINNIPEG GRAIN

WINNIPEG, Oct. 12—(AP)—Absence of selling pressure gave wheat futures prices a firm tone when operations were resumed on the Winnipeg grain exchange today and within the first half hour light export and investment purchases had hoisted values nearly a cent.

Quotations at 10 a.m. were 3-4—5-8 cent higher, October at 71 3-4, Nov. 72 3-4, Dec. 75 5-8 and May wheat 78 3-8 cents. Operations thinned after the opening flurry but prices retained their steadiness.

Observance of Columbus day kept United States and Buenos Aires markets closed and inter-market trade was restricted.

BUCK-PASSING LONG HEAPED ON COLUMBUS

Ten Years Spent By Discoverer In Obtaining Financial Backing

NEW YORK, Oct. 12.—(AP)—Today was a great anniversary for people who spend their lives battling buck-passing and red tape, for Christopher Columbus was their pioneer.

He got the runaround a dozen times in succession before he put across his scheme for exploring the western world. They not only laughed at Columbus—they laughed at him for 10 years straight.

He first broached the idea to King John of Portugal in 1482. The king referred him to the council for geographical affairs. And they turned him down.

So Columbus went to Spain, and spent two years trying to sell the idea to the count of Medina. After all that work, the count referred him to Queen Isabella.

The queen was busy fighting the Moors, and the proposition (what Columbus was after was financing) was referred to a royal committee. And they turned it down.

Then he went to Cardinal Mendoza, who finally succeeded in arranging a direct interview with the queen. But once more it was no dice.

In 1488 (four years to go yet!) Columbus went back to Portugal and resumed negotiations with that government—to no avail.

While his brother, Bartholomew, was proposing the idea to the British and French governments, Columbus spent the entire year of 1490 lining up another hearing from the Spanish government. A cabinet council told him to come back and see them when the war was over.

In despair he started for France, but on the way ran into an old friend, Juan Perez, formerly the queen's confessor, who promised to write her a letter.

That got Columbus another interview. But just when he thought he had the deal in the bag, the government balked.

In January, 1492 he set out in disgust for France. Simultaneously, the Spanish government changed its mind and sent a messenger after him.
